

# Computer Software for Construction Management

**maestro\***  
The power of simplicity.

## Multi-City Seminar Series

### Introducing Maestro\*

**Maestro\* Construction Management System** is a true project based solution that starts with Bidding & Estimating and follows through with comprehensive project, accounting and business management tools.

We invite you and members of your team to attend a seminar to help determine if **Maestro\*** should be your construction management solution.

If your company has outgrown it's accounting software, **Maestro\*** may be the right solution for your operational management system.

#### Features

- Estimating & Bidding
- Project Costing & Administration
- Subcontract Management
- Issue and Change Order Management
- Work Orders and Service Management
- Equipment & Garage Management
- Small Tool Control and Rentals
- Inventory Control
- Purchase Orders and Procurement
- All supporting project documents, drawings, pictures and even video stored with the project
- Contractor specific billing & invoicing
  - Contract Price Invoicing
  - Time and Materials Billing
  - Progress Billing
- Daily Labor costing
- Centralized Contact Management
- Transmission Log tracks all project correspondence
- Multi-User, Multi-Company, Multi Currency accounting
- Integration with MS-Office utilities
