

Bidding management finally made simple.

Direct, simple, effective and connected.

MaestroBid is a free web-based service that automates the construction bid management processes. MaestroBid enables contractors to securely, confidentially and quickly publish and manage their entire bid offer via the Internet, while simultaneously improving interactive, real-time communication with subcontractors.

- Manage all your bid proposals online
- Target invitations to qualified bidders
- Create your online bidding network
- Secure 24/7 access
- Protect the environment with paperless bidding

MaestroBid centralizes project information into a simple bid form. It automatically targets invitations to qualified bidders. Create a virtual database of your subcontractors with contacts, territorial and skill information for central reference. Manage bid proposals with up-to-date information on an easy-to-use dashboard.

MaestroBid links projects with bids and documentation, giving you full control and reporting over your project data. Bid proposals are manageable with ease and simplicity.

MaestroBid offers you a better control over your bidding processes. You don't need to buy and install any software.

Just submit your offers to your community with unequalled rapidity in real-time.

- Optimize your bidding processes
- Maximize the power of your network
- Take full advantage of your business
- Discover new business possibilities

MaestroBid sends invitations, plans and specs to subcontractors who can accept or decline the bid offer. MaestroBid's import features allows you to transfer your data from Excel or Outlook.

From defining a new project right through to selecting regionally-based specialized subcontractors, **MaestroBid** provides you with a simple interface that automates every stage of the bid process — reducing costs and improving productivity.

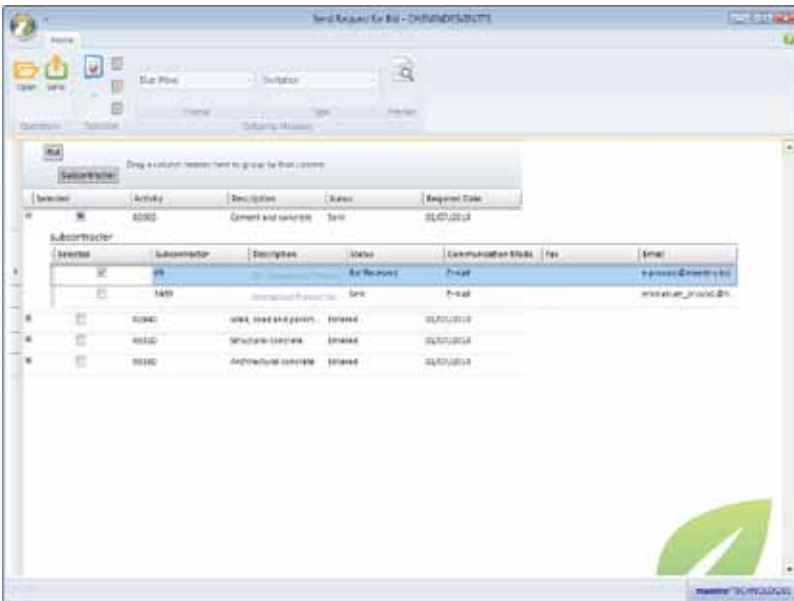

State-of-the-art bid management built for performance

MaestroBid keeps your bid invitations, addenda and plans in one secure, online location that you can access from anywhere 24/7. Receive bid invitations and instantly submit proposals with all relevant information to your secure online space. Link projects with bids and documentation and get full control and reporting over your project data.

Discover the paperless world of high-efficiency online bidding

MaestroBid allows general contractors to easily organize and distribute electronic documents to key subcontractors, ensuring everyone has permission-based/confidential access to up-to-date information with the click of a mouse. Paperwork is minimized, reducing errors, reducing waste and reducing costs — all while improving project-wide communication.

With MaestroBid, you can easily compare bid proposals and respond instantly with certified confidentiality. MaestroBid allows you to view the complete bid history of each project and manage the bidding qualification process for optimal results. For more info maestrobid.com

maestro TECHNOLOGIES
